

The Audi e-tron

Electric mobility starts here.

The Audi e-tron reflects the fundamental formal idiom of Audi design and translates it for the electric age. Immerse yourself in style-defining details, performance, and experiences indicative of the new drive technology.

Shaping the future.

Whether you're taking a weekend trip or a longer journey for a holiday – the Audi e-tron offers up to 300 kW of power (408 hp) with a maximum range of up to 436 km, suitable for driving long distances.

Distinctively an SUV.

An important design element - the incredible shoulder line that runs from the front headlights over the flank to the taillights gives the Audi e-tron a low centre of gravity. The distinctive sill area, the lack of exhaust pipes, and the Virtual side mirrors (not only do they reduce drag, but also take digitalization in the car to a new level) visualize electrification to its core while sporting Audi's characteristic SUV DNA.

Get in and feel good.

Modern and intuitive, the cockpit of the Audi e-tron allows you to simply carry on leading your digital life. Generous headroom and legroom ensure you sit comfortably, while high-quality materials guarantee a sense of exclusivity. Enjoy the low noise level made possible by the virtually silent electric drive.

Technical specifications

Electric. And full of wonderful details. With intuitive, integrated, and universal technologies, the exciting world of electric mobility is here.

Engine

Engine type	Electric
--------------------	----------

Charge time DC 5-80% in min	30 with HPC 150 kW
------------------------------------	--------------------

Power

Electric torque	664 Nm
------------------------	--------

Battery type	Lithium-ion
---------------------	-------------

Gross battery capacity	95 kWh
-------------------------------	--------

Net battery capacity	86 kWh
-----------------------------	--------

Electrical power	408 hp
-------------------------	--------

Power transmission

Drive Type	all-wheel drive
-------------------	-----------------

Clutch	Hydraulic torque converter with lock-up clutch
---------------	--

Number of electric motors	2
----------------------------------	---

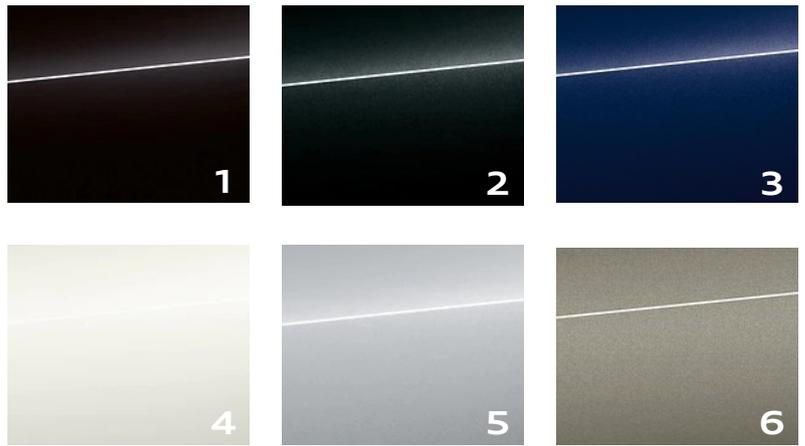

Mileage

Top speed	200 km / h
------------------	------------

Acceleration 0-100 km	5.7 s
------------------------------	-------

Exterior

- 1. Brilliant black, metallic
- 2. Myth black, metallic
- 3. Navarra blue, metallic
- 4. Glacier white, metallic
- 5. Florett silver, metallic
- 6. Chronos gray, metallic

Wheels

e-tron

The high-gloss black model designation provides a particularly striking individual design element.

When a black and orange design element encounters a sporting design, a very individual aura is created.

Audi child seat i-Size. For infants with a body length of approx. 76 to 105 cm

The entry LED projects the quattro lettering onto the ground when the front doors are opened.

The Audi e-tron

Shaping the future.
