Now is calling.

In a world full of possibilities, every day is an opportunity - grasp them with the new Audi Q5.
Created for virtually every landscape: the new Audi Q5.

Don’t leave anything to chance. Whether you’re looking for comfort, style or dynamics, this premium SUV will win you over from the word go. Thanks to its expressive look, powerful drive and pioneering technologies. And a wealth of options. Day in, day out – with the new Audi Q5.
Developed to move you.
Even when standing still.

Every detail of the new Audi Q5 is characterised by the typical Q design and embodies dynamism and confidence. Take the striking bonnet or the gently sloping roof line, the exterior mirrors on the shoulders and the slim window line. The optional partly polished cast aluminium wheels in 5-segment spoke design in contrasting grey are an expression of exceptional sportiness. And leave a lasting impression, even offroad.
Give light a whole new design: the Audi Matrix LED headlights.

The new Audi Q5 is a shining example. It impresses from afar with the optional Audi Matrix LED headlights. The LED daytime running lights are unobtrusive. The dynamic indicators unmistakeable. And the range, which recognises vehicles driving ahead or oncoming vehicles within system limits, is indispensable. The headlights adapt to the situation in seconds and make progress visible. Just as spectacular: the new sculpted radiator grille and powerful horizontal lines, which emphasise the width and strength of the Audi Q5. Even before you hear the engine roar.
One of quattro’s strengths is recognising the right moment.

Ready for almost every terrain. And the challenges of the future. The multi-axle drive system with ultra-availability. For all four wheels, you can count on it. The vehicle’s intelligent operating strategy ensures that your Q5 is efficient, dynamic and safe – with the familiar level of traction. If quattro is not required, the all-wheel drive switch-off is then helping the driver to save fuel. Of course, quattro remains permanently available, always ready to respond should the situation demand it. Impressively providing a balanced distribution of drive forces in a wide range of road conditions. And for even more dynamic handling on bends, quattro is matched with sport differential as an option for the 4-cylinder engines. Matchless fascination, again and again.

The figures for fuel consumption and CO₂ emissions can be found from page 56 onwards.
Dampens almost everything. Except your enthusiasm.

The optional adaptive air suspension adapts the damping forces of each individual wheel to the driving situation. Depending on terrain, personal driving style and the Audi drive select mode chosen. Precisely and in milliseconds. The different height levels allow you to conquer virtually any bump in the road. The air suspension also continuously compensates for additional weight. The body can be lowered by up to 55 mm for more convenient loading by pressing a button in the luggage compartment. What’s more, you can use Audi drive select to modify the vehicle’s character: to make it more efficient, comfortable or dynamic. But always thoroughly individual.
Without compromising on power.

The TFSI and TDI engines make the new Audi Q5 efficient and perceptibly powerful. The 4 and 6-cylinder engines ensure smooth, silent running. The optional quattro all-wheel drive guarantees a better response during steering and acceleration. And the start-stop system – new to the fuel Q5 – brings more efficiency. The engine is switched off during coasting. The benefits to reduce consumption without forfeiting performance.

The figures for fuel consumption and CO₂ emissions can be found from page 56 onwards.
Take centre stage. Without leaving your seat.

The interior of the new Audi Q5 is geared towards the driver and offers plenty of room for customising thanks to the longer wheelbase. Choose how you want to emphasise many of the details with high-grade materials such as fine Nappa leather, expressive design elements and lighting options. An impressive ambient atmosphere featuring acoustic glazing as standard and sport seats in the front with optional massage function. Proving that the driver is always the number one priority.

The figures for fuel consumption and CO₂ emissions can be found from page 56 onwards.
Demonstrates greatness. In every detail.

The new Audi Q5 impresses with a longer wheelbase, a more generous amount of space and practical storage options. The standard luggage compartment roller cover and the optional luggage compartment mat allow you to adopt the luggage compartment exactly to your requirements. Even the luggage space itself is variable: the optional rear seat bench plus allows you to turn 550 l into 610 l in no time at all. With the aid of the remote backrest release and the luggage compartment release makes loading even easier. If your hands are full, open the tailgate with a foot gesture.

And store even heavy cases with ease.
Enthusiasm is the most powerful driver. It is the only thing that creates the desire to forge new paths. Discover the new Audi Q5.
Leads the way.
And helps the driver read the signs.

Numerous assist systems¹ help to make every trip in the new Audi Q5 more comfortable. The optional camera-based recognition of traffic signs helps you keep pace on long trips. In view of moving traffic, the optional adrenaline assist supports with tips & Co. Functions including traffic jam assist can provide support by automatically keeping the vehicle in lane, braking and accelerating. Audi active lane assistance helps you to steer back into the right lane through discreet but tangible intervention in the electromechanical steering. In addition, collision assist supports the driver in avoiding potential collisions. The optional park assist makes parking easier and exit warning detects and warns of potentially hazardous situations that may lead to a collision when the door is opened. Because for Audi, safety doesn’t stop even you get out of your car.

¹ Please note: The systems work only within system limits and assist the driver.

The figures for fuel consumption and CO₂ emissions can be found from page 56 onwards.

Please note: The systems work only within system limits and assist the driver.

Moreover, the driver remains responsible for all along the vehicle and always to be attentive at all times.
Easy to operate. Hard to miss.

The large, slim 8.3-inch colour display in the optional MMI navigation plus offers impressive clarity and a straightforward operating concept. So that you are well informed in no time at all. Navigation, radio, phone and Audi connect – all on request with MMI touch. Control everything via touchscreen or voice control. The optional Audi smartphone interface integrates selected mobile phone content into your Audi.

The figures for fuel consumption and CO₂ emissions can be found from page 56 onwards.

¹ For legal information and notes on use, please see page 59. ² Please contact your Audi partner for information on compatible mobile phones.
Everything at a glance. At the right moment.

The optional Audi virtual cockpit makes progress visible. The fully digital instrument cluster with high-resolution 12.3-inch screen displays a wide range of driver-related information—from speed and navigation to communication—you choose from numerous display options. And have the future in sight.

The optional Audi head-up display projects driver-related information such as speed, navigation data and a range of assist system data as a full-color virtual display onto the windshield. Directly in the driver’s field of vision. The head-up display can be adjusted depending on the driver’s height, seat position and preferred content. So you can keep your eye on lots of things without losing sight of what’s important: the road.

The figures for fuel consumption and CO₂ emissions can be found from page 56 onwards.
Discover the world with Audi connect.
Without driving a metre.

With the aid of optional Audi connect services you can get an impression of your destination even before you arrive: thanks to the intelligent integration of Google Earth™². Access messages and emails on the road, arrange a servicing appointment with your Audi partner or activate the auxiliary heating via your smartphone app before you get in the car. Audi connect keeps you perfectly connected everywhere and at any time. Even if you break down, help is only the push of a button away. So you can continue your trip as quickly as possible.

The figures for fuel consumption and CO₂ emissions can be found from page 56 onwards.

¹ For legal information and notes on use, please see page 59. ² Google and the Google logo are registered trademarks of Google Inc.
Takes the driver everywhere.

Even to new worlds of sound and light.

The optional Ambient lighting package makes the interior shine in a special light. Even the inlays on the dashboard are illuminated. Match the colour to your personal taste. On request, you can enjoy a concert hall atmosphere with the Bang & Olufsen Sound System. No fewer than 15 loudspeakers create an unmistakable 3D sound. And win thunderous applause from all passengers.
Now is calling.

City, country, forest track, road, motorway, weekend, family, holidays. Now is calling. Beach and a world of possibilities. Experience them. In the new Audi Q5.
More exceptional.

With Q5 design and Audi design selection.

In an Audi Q5, there is plenty of room for your ideas to unfold. With the Q5 design line, for example, you can integrate applications – inlays in fine grain ash, natural grey-brown. Many additional highlights can be found at www.audi.com – including seat upholstery in fine Nappa leather, rock grey with contrasting stitching and inlays in rock grey with contrasting stitching in granite grey.

Audi design selection – interior elements in high-quality genuine leather, fine Nappa leather with contrasting stitching, or standard grey.

As individual as the life you lead.

Audi Genuine Accessories provides you with numerous ways of adding even more facets to your Audi Q5. With products that keep our quality promise day in, day out. Benefit from customised solutions with fascinating design and a high level of functionality.

Cast aluminium wheels:
- In 30-spoke star design, gloss black
- In dimensions 8 J × 20. Also available in brilliant silver.
- Cast aluminium winter wheels – in 10-spoke vox design, gloss black – extremely durable, with special soft padding and available in different sizes. Also illustrated: rear protective cover with red contrasting stitching and Audi logo.

Safety harness for dogs – extremely durable, with soft padding and available in different sizes. Also illustrated: rear rails or that which can be purchased separately through Audi Genuine Accessories.

Range of child seats – suitable for children up to 36 kg (0 to 12 years). – various versions available. Further information can be obtained from your Audi partner.

The figures for fuel consumption and CO₂ emissions can be found from page 56 onwards.

Vehicles with glass-tinted finish as well as polished or partly polished cast aluminium wheels must be treated against corrosion before fitting. For new vehicles, Audi recommends that the manufacturer does not have sufficient corrosion protection for such wheels and can be damaged permanently by road salt or similar. ... We recommend the use of a wiper filler or in combination with the standard washer and for the rear wiper that are sold to be purchased separately through Audi Genuine Accessories.
The fascination of the Audi Q5.  
Find out more online.

Discover the world of the new Audi Q5. More information, more individuality and more exclusivity. Now at www.audi.com.
Model: Audi Q5 2.0 TFSI quattro (169 kW)

- Engine type: 4-cylinder inline petrol engine with common rail injection system and turbocharging
- Displacement: 1,984 (4) cc
- Power transmission: 8-speed tiptronic
- Max. output: 210/3,750–4,000 kW at rpm
- Fuel consumption: 5.8 l/100 km
- CO₂ emissions: 145 g/km

Model: Audi Q5 2.0 TDI quattro

- Engine type: 4-cylinder inline diesel engine with common rail injection system and turbocharging
- Displacement: 2,000 (4) cc
- Power transmission: 8-speed tiptronic
- Max. output: 204/3,750–4,000 kW at rpm
- Fuel consumption: 5.8 l/100 km
- CO₂ emissions: 145 g/km

Explanation of ¹ to ¹⁰ on page 57.

¹  Refill the separate AdBlue tank as indicated by the information in the display of the instrument cluster. We recommend having the AdBlue tank refilled by your Audi partner.

²  Max. output: Power output is given at the highest possible point of regulation. In special vehicle versions, power output may be slightly reduced. Unleaded RON 95 fuel with a maximum sulphur content of 0.1% is permitted for use. CO₂ emissions: Sulphur-free diesel complying with DIN EN 590. If this is not available, use sulphur-free regular unleaded RON 91 fuel complying with DIN EN 228; power output will be slightly reduced. Unleaded RON 95 fuel with a maximum sulphur content of 0.1% is permitted for use.

³  Registered trademark of the Verband der Automobilindustrie e. V. (VDA).

⁴  Trailer load limit in kg: unbraked = 750, trailer load limit = 1,400 kg (trailer load limit + gross weight of the towing vehicle). Figure for trailer load limit applies to factory-fitted trailer towing hitch. If using the vehicle with a trailer towing hitch for commercial purposes, a digital tachograph may be required under certain circumstances.

⁵  Registered trademark of the Verband der Automobilindustrie e. V. (VDA).

⁶  Performance/consumption: Value subject to change due to differences between the vehicles. This applies particularly to commercial vehicles and those manufactured for the rental market.

⁷  See also the separate AdBlue instruction manual. The data in the packaging or the information on the screen of the fuel tank are given in standard conditions. Actual consumption may vary due to driving habits, driving conditions and the condition of the vehicle.

⁸  We recommend using sulphur-free diesel complying with DIN EN 590. If this is not available, use sulphur-free regular unleaded RON 91 fuel complying with DIN EN 228. If this is not available, use sulphur-free regular unleaded RON 95 fuel complying with DIN EN 228; power output will be slightly reduced. Unleaded RON 95 fuel with a maximum sulphur content of 0.1% is permitted for use.

⁹  CO₂ emissions: Sulphur-free diesel complying with DIN EN 590. If this is not available, use sulphur-free regular unleaded RON 91 fuel complying with DIN EN 228.

¹⁰  A vehicle's fuel consumption and CO₂ emissions do not just depend on how efficiently the vehicle is driven, but are also influenced by road and weather conditions and other technical factors. CO₂ emissions are primarily responsible for global warming.
